

May 5, 2020

To: UBC PGME Year-One Residents (R1) Commencing Residency on July 1, 2020

Re: **Save the Date: June 26, 2020 Occupation Health and Safety Orientation**

Health Authorities are working to revise occupational health and safety training and orientations for incoming R1s in response to the pandemic. Please reserve June 26, 2020 for a mandatory occupational health and safety training session. We anticipate hosting a live virtual occupational health and safety orientation on June 26, 2020. In addition, R1s will be expected to complete several online modules in advance of the July 1, 2020 start date.

Further details about participating in the orientation will be provided as soon as they are available
