

April 3, 2020

Dear UBC Residents,

We have launched the **Resident Redeployment Hub (RRH)** to facilitate collaborative scheduling and redeployment of residents for most Royal College programs\* in response to the increasing needs placed on the Health Care System as a result of COVID-19. Attached is a letter which outlines the process and provides answers. As critical members of the Health Care Team, your involvement is highly valued and appreciated. Given the situation with COVID-19 is rapidly evolving, we are preparing for multiple waves of redeployment as well as multiple phases based on what our community need is according to the BC Government and Provincial Health Officer.

\*Programs which are excluded from the RRH are those which are already maximally engaged in the COVID-19 response, have redeployed, or have separate processes for scheduling and redeployment based on their location.

**Excluded programs:**

1. Preventative Medicine and Public Health
2. Family Practice
3. Family Practice Enhanced Skills
4. Critical Care
5. Anesthesia
6. Internal Medicine
7. General Internal Medicine
8. Emergency Medicine
9. Pediatrics
10. Pediatric subspecialties

We deeply appreciate all your efforts during these extraordinary times,

Sincerely,

Ravi S. Sidhu MD MEd FRCS  
Associate Dean, Postgraduate Medical Education  
Associate Professor, Department of Surgery  
Faculty of Medicine | University of British Columbia

Sonia Butterworth BSc MD FRCS  
Assistant Dean, Postgraduate Medical Education  
Clinical Professor, Department of Surgery  
Faculty of Medicine | University of British Columbia
