

A. Basics:

- Unless you have past QI training, take the training in sequential order (e.g., level 1 and then 2, etc).
- If your training is based out of one geographical area, it may be advantageous to take the Level 2/3 training provided by that health authority (if they offer it)
 - Or if you plan to eventually work in a specific health authority, you may want to take the training in that HA. (Level 2 or 3 sessions may be in person)
- Trainees are not eligible for sessional payments (only for practicing MDs)
- Space is limited so register early

B. Details:

	Level 1	Level 2	Level 3	Other
Fraser Health region: physicianqi@fraserhealth.ca Last update - Jun 2025	Yes	Yes	yes	FH Open to having separate session for trainees. Level 2 - Jul 7-8, 2025 Level 3 - Aug 20-21, 2025
